

Lista Hinged Handle Covers

Featuring Lista Script Labeling Software

Hinged drawer handle cover protects labels

Different-sized labeling paper available for Lista's wide range of label holders

Adhesive labels for direct application to drawer dividers

Labels are clearly readable through hinged cover, including by bar code readers

Hinged drawer covers can be repeatedly opened and closed to access and/or change drawer labels

Complete drawer labeling system allows maximized organization

Lista's new hinged handle covers are the next generation in the organization of your valuable stored items.

These innovative handle covers, supplied with all newly-ordered Lista cabinets and Storage Wall® systems that contain drawers, protect your drawer labels from daily handling, tears, spills, grease, grime, etc. The clear plastic hinged cover resists yellowing while clearly displaying the information on your labels. Bar codes protected by the hinged label covers are easily read by bar code readers.

Free Lista Script software

When paired with Lista Script software, the Lista labeling system becomes even more powerful, with enhanced usability, productivity and inventory control. With this easy-to-use software, making informational, attractive labels for your drawers and their contents has never been easier. Fill your labels with the information that matters most to you:

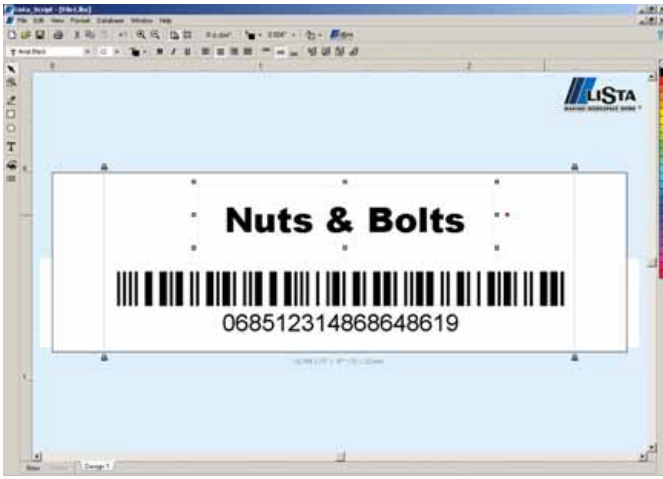

- SKUs
- descriptive copy
- bar codes
- diagrams, photos, custom artwork and more

Use Lista Script to create labels for not only your drawer handles, but all your internal

drawer compartments. Taking advantage of Lista's complete suite of drawer compartment label holders, you can identify drawer contents with a highly organized, easy-to-find, and easy-to-inventory system.

To download your free copy of Lista Script, go to www.listaintl.com/files/listascript.htm.

LISTA
making workspace work®

Lista Script software

Free downloadable software enables user to design and print labels with such elements as SKUs, type, bar codes, diagrams, photos and illustrations. Simple WYSIWYG interface. Requires Windows. To download, go to www.listaintl.com/files/listascript.htm.

Paper label sheet

Perforated sheets of label paper allow printing of labels that fit perfectly into the wide variety of Lista label-holding tabs and covers. One package of 18.784 drawer handle labels is included with each Lista cabinet.
